

# An evening at YouTube

For local middle school students and parents  
with special guest Congresswoman Jackie Speier

Please join us for an evening at YouTube to learn more about how kids can stay smart and safe online. Our special guest for the evening will be Congresswoman Jackie Speier from California's 12th congressional district.

Google and iKeepSafe have developed a curriculum and an animated video series for local communities across the U.S. that we'll be going through, as well as offering online safety tips for parents. We hope the evening will help start the family conversation about online behavior, so we encourage middle schoolers and their parents to attend.

The school with the most attendees will receive a \$1,000 grant toward technology. So please RSVP and tell your friends!
